8TH INTERNATIONAL SYMPOSIUM ON THE PEDIATRIC AIRWAY
June 2-5, 2016
University of Colorado Anschutz Medical Campus
Children’s Hospital Colorado
www.pedsairwaysymposium.org

Held approximately every four years since 1987, the ISPA has become one of the premier venues for an interdisciplinary exchange of information and new ideas about the airway of infants and children, and attracts participants from the US, Canada, Europe, and the Middle East. Founded by Dr. Lawrence Borland of The Children’s Hospital of Pittsburgh, the 8th Symposium will again be hosted by Children’s Hospital Colorado on the Anschutz Medical Campus of The University of Colorado School of Medicine. Join us!

Registration and submission of abstracts/interesting case presentations is now open online.

Faculty
P. Samuels, Univ of Cincinnati/ Cincinnati Children’s
M. Rutter, Univ of Cincinnati/ Cincinnati Children’s
C. Mattava, Univ of Toronto/ Hospital for Sick Children
M. Theroux, Dupont Children’s Hosp, Delaware
J. Galvez, Univ of PA/ Children’s Hosp of Philadelphia
D. Poulter, Univ of CO/ Children’s Hosp Colorado
W. Halbre, Univ of Geneva/ Children’s Hosp of Geneva
J. Fiacco, Univ of PA/ Children’s Hosp of Philadelphia
A. Fernandez-Bustamonte, Univ of CO
P. Kelley, Univ of CO/ Children’s Hosp Colorado
J. Feldman, Univ of PA/ Children’s Hosp of Philadelphia
D. Sweeney, Univ of CO/ Children’s Hosp Colorado
R. Sherridan, Harvard Univ/ Shriner’s Burn Institute, Boston
S. Goldenberg, Director of Product Development, NAMSA
G. Lane, Univ of CO/ Children’s Hosp Colorado
T. Wine, Univ of CO/ Children’s Hosp Colorado
J. Zieg, Univ of CO/ Children’s Hosp Colorado
M. Brockel, Univ of CO/ Children’s Hosp Colorado
J. Szolnoki, Univ of CO/ Children’s Hosp Colorado
N. Friedman, Univ of CO/ Children’s Hosp Colorado
T. Parker, Univ of CO/ Children’s Hosp Colorado
E. DeBoer, Univ of CO/ Children’s Hosp, Denver
J. Prager, Univ of CO/ Children’s Hosp, Denver
J. Fiacco, Univ of PA/ Children’s Hosp of Philadelphia
M. Federico, Univ of CO/ Children’s Hosp Colorado
M. Meyers, Univ of CO/ Children’s Hosp Colorado

Topics
Congenital airway masses
In-utero airway imaging and surgical planning
EXIT and fetal surgery and the airway
Acquired subglottic stenosis, prevention & management
Skeletal dysplasias, burns, epidermolysis bullosa
What have we learned about difficult airway management?
3D printing, new technology and the airway
Communication and multi-disciplinary management
Dexmedetomidine sleep endoscopy studies
Airway inflammation, asthma, & chronic aspiration
Ventilation induced lung injury
Physiology of assisted and controlled ventilation
Managing the airway in the US and Europe- what can we learn from each other?
Interesting cases / difficult airways

Optional airway workshop on June 2 4-6pm
