BTS

COEX Starfield Library

Bibimbap

Jongmyo Shrine

Changdeokgung Palace

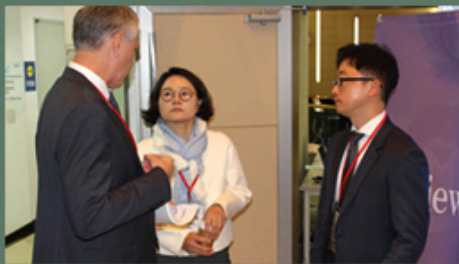

I. Location, location, location

We welcome everyone to come and discover the harmony between tradition and modernity of Korea's culture. The meeting is being held in Gangnam, the center of South Korea's capital Seoul. Come and visit various UNESCO World Heritage sites such as the Changdeok Palace, Jongmyo Shrine, and the Royal Tombs of the Joseon dynasty. Gangnam (yes, the same place mentioned in the famous K-pop "Gangnam style" by Psy) is not only the center for Korean business and modernized K-culture, it is also Seoul's number one nightlife spot. Immerse yourself in various activities while enjoying incredible food and shopping at boutiques and huge shopping centers after our programs.

II. Recent updates by renowned experts around the world

The diversity of the topics covered at ASPA 2023 is unbelievable. Starting with practical issues for our smallest patients (airway management, intraoperative ventilation, transfusion & fluid therapy, perioperative pain management, NORA, etc), we also covered futuristic topics in the ever-evolving field of pediatric anesthesia. Renowned international experts will share their opinions and experience on professional development, challenges we must face for future pandemics, anesthesia-related neurotoxicity, and how big-data analysis is changing our practice. We welcome everyone to come and discover how our clinical practice can affect the global environment, and how Asian societies & WFSA are committed to ensure perioperative safety in pediatric patients.

III. Excellent opportunities to connect with experts and colleagues.

All sessions include plenty of time to ask questions and opinions to the experts. To increase the opportunity of every participant, you will also be able to ask questions or add opinions directly online. And don't forget the unlimited supply of coffee served by professional baristas during our breaks to help ease the atmosphere for exchanging opinions. Last, but definitely not the least, our gala dinner will be held at 'Sebitseom Vista Restaurant'. The restaurant is located on an exotic floating landmark on the Han River, providing a stunning view and an exceptional culinary experience. We are without doubt that the gala dinner will be the perfect spot to meet colleagues and make new connections!

Abstract Submission & Early Registration

15th April 2023 In KST(GMT+9)
