May 30<sup>th</sup> , 2023

I would like to submit my candidacy for a general position in the Executive Board of the European Society for Paediatric Anesthesiology. I believe that my experience, qualification and proficiency can make a positive and significant impact by joining the Executive Board.

I am currently working as a Consultant Paediatric Anaesthesiologist in Geneva University Hospitals. I am interested in research in the field of perioperative hemostasis in adults as well as in children; I am part of several experts committee and participated in the elaboration of several published guidelines. As an Associate Editor for the *European Journal of Anaesthesiology* and for the *European Journal of Anaesthesiology and Intensive Care*, I am particularly awared of scientific integrity, research originality and innovation to improve patients care.

I would like to get more actively involved in the development of ESPA, and I am confident that I could help our society to promote clinical knowledge and research.

Fanny Bonhomme
