October 10<sup>th</sup> , 2025

I am pleased to submit my application to continue serving as a member of the Executive Board of the European Society for Paediatric Anaesthesiology (ESPA). I am convinced that my experience, commitment, and professional background will enable me to continue contributing in a meaningful way to the society's mission.

As Executive Board members, I believe we share a collective responsibility to promote patient safety, support excellence in education, advance scientific knowledge, and foster international collaboration and high-quality research. These values are at the heart of my daily clinical and academic activity.

I currently work as a Consultant Paediatric Anaesthesiologist at Geneva University Hospitals. My main research interest lies in perioperative haemostasis in both adults and children. I have been actively involved in expert committees and have contributed to the development of several published clinical guidelines. As an Associate Editor for the *European Journal of Anaesthesiology* and for the *European Journal of Anaesthesiology and Intensive Care*, I am deeply committed to upholding scientific integrity, methodological rigor, and innovation to improve patient outcomes.

Over the past two years, I have had the privilege of contributing to ESPA's activities and development. I would be honored to continue supporting the society, particularly through my ongoing involvement in the Scientific Committee, and to further strengthen ESPA's role as a leading voice in paediatric anaesthesia across Europe.

Thank you for considering my application. I remain fully committed to advancing ESPA's objectives and would be delighted to continue serving within the Executive Board.

Fanny Bonhomme
