

Thursday, September 17

09.00-10.30

Room 2 / Ruby C

Room 3 / Amber A

Turkish session I - New methods in paediatric anaesthesia (Chairs: Dilek Özcengiz and Hülya Bilgin) - in Turkish language	ACORNS meeting
09.00-09.10 Welcome and opening remarks (Dilek Özcengiz)	
09.10-09.30 Innovations in intraoperative ventilation strategy (Tümay Umuroglu)	
09.30-09.50 Preoxygenation: friend or foe? (A. Cigdem Tutuncu)	
09.50-10.10 Use of ultrasound in the perioperative period and intensive care (Zehra Hatipoğlu)	
10.10-10.30 What happened in pediatric anaesthesia in 2014? (Feray Gürsoy)	

10.30-11.00 *Coffee break*

11.00-12.00

Room 2 / Ruby C

Room 3 / Amber A

Turkish session II - Changes in pediatric anesthetic practice (Chairs: Mine Solak and Sibel Barış) - in Turkish language	ACORNS meeting
11.00-11.20 Neurotoxicity (Güner Kaya)	
11.20-11.40 Fluid management (Mehmet Emin Orhan)	
11.40-12.00 Drugs (Serpil Ustalar Özgen)	

12.00-13.00 *Lunch break*

13.00-13.30 Room 1 / Ruby AB

Opening and Welcome Ceremony

13.30-15.00 Room 1 / Ruby AB

Room 2 / Ruby C

Room 3 / Amber A

Room 4 / Amber B

Monitoring (Chair: Sibel Baris)	Microcirculation in children (Chair: Ehrenfried Schindler)	US in regional anaesthesia 1 (Giorgio Ivani, Valerie Mossetti)	US for vascular access 1 (Michael Brackhahn, Christian Breschan, Thierry Pirotte)
13.30-14.00 Why do we need monitors? (Thomas Engelhardt)	Background (Maria Vittinghof)		
14.00-14.30 What is required to be able to monitor parameters? (Mats Wallin)	Non-invasive monitoring of the microcirculation in children (Zekeriyya Alanoglu)		
14.30-15.00 "Silly" Monitors (Per-Arne Lönnqvist)	Invasive monitoring of the microcirculation in children (Marzena Zielinska)		

15.00-15.30 *Coffee break*

15.30-17.00 Room 1 / Ruby AB

Room 2 / Ruby C

Room 3 / Amber A

Room 4 / Amber B

The CNS (Chair: Dusica Simic)	Drugs (Chair: Brian Anderson)	US in regional anaesthesia 2 (Giorgio Ivani, Per-Arne Lönnqvist, Valerie Mossetti)	US for vascular access 2 (Michael Brackhahn, Christian Breschan, Thierry Pirotte)
15.30-16.00 The Yin and Yang of Anaesthetics Drugs: Are They Neuroprotective or Neurotoxic? (Laszlo Vutkits)	TIVA/TCI in children: practical advice (Alistair Baxter)		
16.00-16.30 Spine monitoring (Andrea Szélényi)	Near-real time measurement of propofol (Oliver Bagshaw)		

16.30-17.00	Imaging of brain and spine (Nicola Disma)	Depth of anaesthesia monitoring in children (Frank Weber)		
-------------	-------------------------------------------	-----------------------------------------------------------	--	--

Room 1 / Ruby AB

17.00-18.00	ESPA general assembly			
-------------	-----------------------	--	--	--

18.00-19.00 Welcome drink

Friday, September 18

	Room 1 / Ruby AB	Room 2 / Ruby C	Room 3 / Amber A	Room 4 / Amber B
09.00-10.30	"Paperless anaesthesia" (Chair: Andrew Wolf)	TOP Best papers for ESPA prize 2015 (Chair: Pervin Bozkhurt, Judges: Tom Hansen, Martin Jöhr, Neil Morton)	US in regional anaesthesia 3 (Giorgio Ivani, Valerie Mossetti)	US for vascular access 3 (Michael Brackhahn, Christian Breschan, Thierry Pirotte)
09.00-09.45	Anaesthesia information management systems (AIMS) (Rainer Röhrig)	A double - blind, randomized, controlled study of single shot intercostal block for pain management in paediatric patients undergoing the nuss procedure - final results (Laura Lukosiene)		
		The effects of premedication with intravenous midazolam or Ketamine on success rate and complication of caudal anesthesia in awake neonates-infants (Mahin Seyedhejazi)		
		Evaluation of the cardiovascular response to infiltration with local anaesthetic with adrenaline in primary cleft palate surgery (Aideen Maguire)		
		Anaesthetic masks with smeared flavour are most cost-effective than pre-scented masks for inhalational induction in children-A randomised controlled trial (Mathew Preethy)		
		Advanced hemodynamic monitoring during adult kidney transplantation in very young children (Marieke Voet)		
09.45-10.30	Uses or abuses of the data (Brian Anderson)	Detection of respiratory adverse events in sedated paediatric dental patients by continuous pretracheal auscultation: A prospective randomised controlled trial (Mostafa Mostafa)		
		Pre-operative group & save testing in children. Are we overdoing it? (Ruth Barbour)		
		Can positive pressure ventilation be provided through a laryngeal mask airway in pediatrics during laparoscopic inguinal hernia repair? (Canan Tulay Isil)		
		Dexmedetomidine for prevention of sevoflurane related emergence agitation in children undergoing hypospadias repair surgery under combined general and caudal anaesthesia (Eleana Garini)		

10.30-11.00 Coffee break

	Room 1 / Ruby AB	Room 2 / Ruby C	Room 3 / Amber A	Room 4 / Amber B
11.00-12.30	New insight into education, training and safety (Chair: Torsten Lauritsen)	NIRS (Chair: Tom Hansen)	Practical ABC ultrasound workshop 1 (Johan Heiberg et al)	Medical Emergencies in Paediatric Anaesthesia 1 (Mark Thomas, Pauline Cullen, David de Beer)
11.00-11.30	E-learning (Ehrenfried Schindler)	Update on the use of NIRS (Laszlo Vutskits)		

11.30-12.00	The value of simulation in training (David Rowney)	NIRS usage outside the brain (Andrew Wolf)		
12.00-12.30	Using crowdsourcing to unlock international medical expertise (Felix Jackson)	NIRS as a research tool (Lisbeth Thewissen)		

12.30-14.30 Lunch break

13.00-14.30 Poster walk (Chairs: Brian Anderson, Nicola Disma, Tom Hansen, Martin Jöhr, Ehrenfried Schindler, Laszlo Vutskits)

14.30-16.00	Room 1 / Ruby AB	Room 2 / Ruby C	Room 3 / Amber A	Room 4 / Amber B
	The lungs and airways (Chair: Thomas Engelhardt)	The circulation (Chair: Ehrenfried Schindler)	Practical ABC ultrasound workshop 2 (Johan Heiberg et al)	Medical Emergencies in Paediatric Anaesthesia 2 (Mark Thomas, Pauline Cullen, David de Beer)
14.30-15.00	Respiratory monitors (Ates Duman)	Advanced haemodynamic monitoring in critically ill children (Andrew Wolf)		
15.00-15.30	Non-invasive ventilators (Arash Afshari)	What is a normal a normal blood pressure in children (Nigel Turner)		
15.30-16.00	New intubation devices (Thomas Engelhardt)	Age-appropriate use of inotropes and vasopressors (Walid Habre)		

16.00-16.30 Coffee break

16.30-17.30 Room 1 / Ruby AB

16.30-17.30	ESPA guest lecture (Chair: Neil Morton)
16.30-17.30	The Safetots initiative (Markus Weiss)

20.00-23.00 Boat cruise

Saturday, September 19

08.00-09.00 Room 1 / Ruby AB

Industry sponsored symposium	
Options for difficult vascular access in children (Gregory J. Schears)	
- Review background issues related to difficult vascular access	
- Discuss the use of ultrasound to obtain peripheral access	
- Discuss the advantages of intraosseous catheters to obtain vascular access	
- Identify the uses of NIR technology for peripheral venous access	

09.00-10.30	Room 1 / Ruby AB	Room 2 / Ruby C	Room 3 / Amber A	Room 4 / Amber B
	Best paediatric papers (Chair: Tom Hansen)	Case-based discussions 1 (Chair: Maria Vittinghoff)	Practical ABC ultrasound workshop 3 (Johan Heiberg et al)	Medical Emergencies in Paediatric Anaesthesia 3 (Mark Thomas, Pauline Cullen, David de Beer)
09.00-09.30	Anaesthesia (Neil Morton)	Anesthesia in a child with acute respiratory infection		
09.30-10.00	PICU (Brian Anderson)	Perioperative management of a trauma patient		
10.00-10.30	Pain and RA (Per-Arne Lönnqvist)	Anesthesia for herniotomy in an expremature infant		

10.30-11.00 Coffee break

11.00-12.30	Room 1 / Ruby AB	Room 2 / Ruby C	Room 3 / Amber A	Room 4 / Amber B
	Lessons from the big projects (Chair: Neil Morton)	Case-based discussions 2 (Chair: Francis Veykemans)	Practical ABC ultrasound workshop 4 (Johan Heiberg et al)	Medical Emergencies in Paediatric Anaesthesia 4 (Mark Thomas, Pauline Cullen, David de Beer)
11.00-11.30	APRICOT (Walid Habre)	A child with a funny face coming for MRI		
11.30-12.00	GAS study (Jurgen De Graaf)	Exploration laparoscopy in a neonate		
12.00-12.30	UK national audit projects (David Rowney)	A dyspnoeic child scheduled for a bone marrow puncture		

Room 1 / Ruby AB

12.30-13.00	Prizes and closing (ExBo/Organizing Committee)
-------------	-------------------------------------------------------
