

ESPA 2016 Congress / Belgrade

Thursday, September 29

	Room 2	Room 3
09.00-10.30	Serbian session I (ISSPA 8) (in Serbian language) Chair: Dusica Simic	ACORNS meeting
09.00-09.10	Welcome and opening remarks Dusica Simic	
09.10-09.30	Myocarditis and anaesthesia Dusica Simic	
09.30-09.50	Laryngeal mask airway in a neonate with subglottic tracheal stenosis and a tracheo-oesophageal fistula Branislav Mojsic	
09.50-10.10	Anesthetic management of a child with Alagille's syndrome Ivana Budic	
10.10-10.30	Anesthesia for premature infants on high frequency ventilation - do we have dilemma? Biljana Draskovic	

10.30-11.00 *Coffee break*

	Room 2	Room 3
11.00-12.00	Serbian session II (ISSPA 8) (in Serbian language) Chair: Dusica Simic	SciCo meeting P-A Lönnqvist, Jürgen de Graaff, Laszlo Vutskits, Tom G. Hansen
11.00-11.20	Video-assisted techniques for airway management in children Marijana Karišik	
11.20-11.40	G/G+ vs. metabolic early neonatal sepsis characterized by primary liver failure and coagulation disorders (DIK) and sec. renal failure - case report Slobodan Micic	
11.40-12.00	Intrathecal colistin for posttraumatic meningoencephalitis caused by multiresistant acinetobacter baumani - case report Darko Golic	

12.00-13.00 *Lunch break*

	Room 1
13.00-13.30	Opening and welcome ceremony Chair: Ehrenfried Schindler

	Room 1	Room 2	Room 3
13.30-15.00	Lectures: Perioperative news Chair: Martin Jöhr	Workshop Neonatal ventilation simulation Christian Fremerey, Annika Paulun	Workshop Regional anaesthesia I - for beginners Steve Roberts, Rishi Diwan, Naveen Raj, Irena Simić, Dragan Marinković
13.30-14.00	Preoperative fasting - time for a drink? Peter Frykholm		US caudals and peripheral nerve catheters
14.00-14.30	New discharge criteria from PACU Nicola Disma		Basic needling and US machine knowledge, rectus sheath and TAP blocks
14.30-15.00	When is it safe to return home from hospital after minor and major surgery - the ward issues Francis Veykemans		Basic upper and lower limb blocks (femoral, popliteal, supraclavicular)

15.00-15.30 *Coffee break*

	Room 1	Room 2	Room 3
15.30-17.00	Lectures: Airways Chair: Thomas Engelhardt	CBD: Paediatric scoliosis surgery Chair: Jürgen de Graaff	Workshop Regional anaesthesia II - for advanced Steve Roberts, Rishi Diwan, Naveen Raj, Irena Simić, Dragan Marinković

15.30-16.00	Perioperative airway complications Markus Weiss	Introduction to the pathophysiology and treatment of spinal deformities in children René Castelein	US caudals and peripheral nerve catheters
16.00-16.30	Measurements of capnodynamics P-A Lönnqvist	Neuromonitoring in spinal surgery in children Louis Journée	PEC block, paravertebral block
16.30-17.00	Oxygen toxicity Walid Habre	Anesthesia and postoperative pain treatment in paediatric scoliosis surgery Martin Schmidt-Niemann	Advanced upper and lower limb blocks

Room 1

17.00-18.00	ESPA general assembly
-------------	------------------------------

18.00-19.00 *Welcome drink*

Friday, September 30

	Room 1	Room 2	Room 3	Room 4
09.00-10.30	Lectures: Sedation and analgesia outside the OR Chair: Pervin Bozkurt	CBD: Pro-con debate Markus Weiss	Workshop US vascular access I Michael Brackhahn, Christian Breschan, Thierry Pirotte	TOP 10 best oral papers for ESPA prize 2016 Chair: Tom G. Hansen
09.00-09.30	How to organized a paediatric sedational service Ana Mandras	The use of cuffed tubes for anaesthesia and in PICU - pro: Markus Weiss		Cerebral oximetry with near-infrared spectroscopy-NIRS and negative postoperative behavioral changes in paediatric surgery - Estefanía Gómez-Pesquera
09.30-10.00	How to monitor sedation outside Ors Neil Morton	The use of cuffed tubes - noc: Thomas Engelhardt		Oral morphine dosing predictions based on single dose in healthy children undergoing surgery - Joy Dawes
10.00-10.30	Dexmedetomidine for sedation in paediatrics Keira Mason	Plenum discussion with delegates		Comparison of two different modes of body insulation and forced- air body warming for the prevention of intraoperative hypothermia in neonates and infants undergoing major surgery - Despoina Iordanidou
				Saving sick children – recent efforts of a district general hospital - Nancy Wang
				Incidence of artifacts and deviating values in research data obtained from a pediatric anesthesia information management system database - Anne-lee Hoorweg
				Feasibility of procedural deep sedation and anaesthesia in spontaneously breathing children by using native airways: an analysis of more than 2000 procedures - Domien Vanhonacker
				A Multidisciplinary, Multi-Site, Mobile Paediatric High-Fidelity Simulation Program – The First Four Years: Results, Challenges And Perspectives - Mauro Arrica
				The effect of temperature on sevoflurane-induced apoptosis in developing rat brain - Hannah Gill
				Intravenous thiopental is a safe and effective sedative for paediatric magnetic resonance imaging - Yunus Oktay Atalay
				Unplanned hospital admission after pediatric day-case surgery at Pediatric Hospital Bambino Gesù, Rome, Italy - Giuliano Marchetti

10.30-11.00 *Coffee break*

	Room 1	Room 2	Room 3	Foyer
11.00-12.30	Lectures: Anaesthesia-related neurotoxicity and the developing brain Chair: Tom G. Hansen	CBD: Paediatric burns Moataz Abdelrhman	Workshop US vascular access II Michael Brackhahn, Christian Breschan, Thierry Pirotte	Posterwalk I Chair: Thomas Engelhardt
11.00-11.30	Overview of animal data Vesna Jevtovic-Todorovic	Pathophysiology		

11.30-12.00	Neurotoxicity from non-anaesthetic drugs Henrik Viberg	Anaesthetics considerations	
12.00-12.30	Will we ever see this phenomenon in humans? Tom G. Hansen	Long-term outcome	

12.30-14.30 *Lunch break*

Room 1	Foyer
13.30-14.30 Industry sponsored symposium - Maquet	Posterwalk: The 10 best posters Chair: Laszlo Vutskits

Room 1	Room 2	Room 3	Foyer	
14.30-16.00 Lectures: New drugs Chair: Laszlo Vutskits	CBD: Interhospital transportation Martin Jöhr (intra-hospital transfer), Ivana Budic (inter-hospital transfer)	Workshop Regional anaesthesia III - for advanced Steve Roberts, Rishi Diwan, Naveen Raj, Irena Simić, Dragan Marinković	Posterwalk II Chair: Mark Thomas	
14.30-15.00 New analgesics Brian Anderson				US caudals and peripheral nerve catheters
15.00-15.30 New sedatives Pervin Bozkurt				PEC block, paravertebral block
15.30-16.00 New local anaesthetics P-A Lönnqvist				Advanced upper and lower limb blocks

16.00-16.30 *Coffee break*

Room 1
16.30-17.30 ESPA guest lecture Chair: Ehrenfried Schindler
Raising the standards in paediatric anaesthesia Simon Courtman

20.00-23.00 *Congress dinner*

Saturday, October 1

Room 1
08.00-09.00 Industry sponsored symposium - Primex Pharmaceuticals

Room 1	Room 2	Room 3	
09.00-10.30 Lectures - Best papers Chair: Tom G. Hansen	CBD: Blood transfusion: Alternatives and conservation Chair: Jürgen de Graaff	Workshop Pain management I - Perioperative pain management after day case surgery Maria Vittinghoff, Marzena Zielinska, Valeria Masetti, Ivana Petrov	
09.00-09.30 Anaesthesia Laszlo Vutskits			Neonates and transfusion triggers Phil Arnold
09.30-10.00 PICU Brian Anderson			Coagulation and TEG in cardiac and non-cardiac anaesthesia in children Nigel Turner
10.00-10.30 Pain and RA P-A Lönnqvist			Blood sparing strategies in cardiac and non-cardiac surgery Ehrenfried Schindler

10.30-11.00 *Coffee break*

Room 1	Room 2	Room 3
11.00-12.30 Lessons from the big projects Chair: Tom G. Hansen	CBD: The adolescent with Fontan circulation for an emergency laparotomy Ehrenfried Schindler, Laszlo Vutskits	Workshops Pain management II - Perioperative pain management after major surgery Maria Vittinghoff, Marzena Zielinska, Valeria Masetti, Ivana Petrov
11.00-11.30 The APRICOT study: How do you organize a big multicenter study? Walid Habre		
11.30-12.00 Defining relevant outcome measures in the GAS study Gaia Giribaldi		
12.00-12.30 The NECTARINE study: what will you do differently? Nicola Disma		

Room 1
12.30-13.00 Prizes and closing
