The 3rd Croatian Symposium of Paediatric Anaesthesiologists with International Participation

Vodice, Croatia, 5th and 6th October 2018, Hotel Olympia Sky

ORGANISER:

The Paediatric Anaesthesia Section of the Croatian Association for Anaesthesiology and Intensive Care (HDAIL)
of the Croatian Medical Association (HLZ)
Dear colleagues, guests and friends,

We are very pleased to invite you on behalf of the Paediatric Anaesthesia Section of the Croatian Association for Anaesthesiology and Intensive Care of the Croatian Medical Association (HDAIL- HLZ) to attend the 3rd Croatian Symposium of Paediatric Anaesthesiologists, which will be held on October 5th and 6th 2018 in Vodice (Croatia) along with the 8th Croatian Paediatric Surgery Congress.

The topic selection includes both the current issues and the new breakthroughs in paediatric anaesthesia.

The first topic is safety in paediatric anaesthesia, which covers a wide area of education of anaesthesiologists for paediatric anaesthesia, from the minimum equipment, space and monitoring requirements, drugs/medications use, to the effects of anaesthesia on the developing brain of a child. The second topic is ultrasound-guided regional anaesthesia of children, where the use of ultrasound has significantly improved the safety of paediatric anaesthesia and became the standard. The third topic covered includes case reports of unexpected events in paediatric anaesthesia and of events that have changed our professional practices.

The aim of this symposium is to exchange the know-how, our best practices and experiences, to discuss the problems encountered by anaesthesiologists who regularly or occasionally administer anaesthesia to children and to serve as a platform for networking with colleagues and friends.

We look forward to seeing you in Vodice!

The Paediatric Anaesthesia Section HDAIL/HLZ

President
THE SYMPOSIUM TOPICS:

- Safety in paediatric anaesthesia
- Ultrasound-guides regional anaesthesia of children
- Case reports - unexpected events in paediatric anaesthesia / events that have changed our practice
